

Heatmap visualization showing the expression of 12 genes (MIF, VEGF, OSM, AGEN, NCAM, CSF, TNF, FGF, NPR2, IL16, NGPT, FN1, EPHB) across 16 clusters (cluster9, cluster6, cluster5, cluster3, cluster4, cluster10, cluster0, cluster8, cluster11, cluster2, cluster15, cluster7, cluster13, cluster1, cluster16, cluster12). The color scale indicates expression levels, ranging from 0 (dark blue) to 0.15 (dark red). The dendrogram on the left shows hierarchical clustering of the genes.
